

ISAAC ABDIEL NORIEGA VILLALOBOS

Guadalajara, Jalisco | isaac_norvi@hotmail.com | +526693268769 | [linkedin.com/in/isaac-noriega-6b54222b9](https://www.linkedin.com/in/isaac-noriega-6b54222b9) | <https://isaac-noriega.vercel.app>

EDUCATION

ITESO – Universidad Jesuita de Guadalajara | Software Development Engineering

GPA: 9.14/10 | Expected Dec 2026

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript, Java, Python, C, Dart, HTML5, CSS3, SQL.
- **Frameworks & Libraries:** Next.js 16, React 19, NestJS, React Native, Expo, Spring Boot, Flutter, Node.js, Express, Tailwind CSS, Fabric.js, Django, Angular.
- **Cloud & Infrastructure:** AWS (S3, Lambda, EC2, SES), Azure, Docker, Render, CI/CD pipelines, Serverless Architecture.
- **Databases & ORM:** PostgreSQL, MongoDB, PostGIS, Drizzle ORM, Prisma, Redis.
- **Developer Tools & Testing:** Git, GitHub, pnpm, Playwright, Postman, WebSockets (Socket.IO), GraphQL, REST APIs, Figma.

FREELANCE EXPERIENCE

P-P-Custom (E-commerce Platform)

- Architected and implemented persistence infrastructure for interactive Fabric.js graphic editor using PostgreSQL and AWS S3 storage.
- Built a full end-to-end order management system featuring NestJS backend, Drizzle ORM, and Next.js 16 with React 19 frontend interface.
- Integrated AWS SES for automated transactional email workflows and optimized processing for heavy 50MB canvas data exports.

School Sync Suite (Multi-tenant Platform)

- Engineered a robust pnpm monorepo architecture leveraging Next.js and NestJS, implementing granular Role-Based Access Control (RBAC), JWT authentication, and API rate limiting.
- Automated real-time student attendance tracking using HTML5-QRCode integration and WebSocket connections via Socket.IO.
- Managed cloud infrastructure setup, environment configurations, and continuous deployment pipelines hosted on Render platform.

Freelance (Web & Mobile)

- Directed the complete product development lifecycle from UI/UX prototyping in Figma to final production deployment for tailored personal portfolios and interactive event invitation systems.

PROFESSIONAL PRACTICE

Skoolia (Educational Marketplace)

- Engineered scalable full-stack web application architecture using Next.js, NestJS, and PostgreSQL to support educational course delivery, user enrolment, and automated lead tracking.

PERSONAL PROJECTS

NextDate (AI-Powered Scheduling)

- Designed and built cross-platform mobile user interface with React Native and Expo, coupled with a modular Java Spring Boot backend organized under Hexagonal Architecture principles.
- Integrated Gemini AI APIs for dynamic, personalized travel itinerary synthesis and utilized PostGIS extensions for precise geographic proximity calculations.

ACADEMIC PROJECTS

- **ReUseITESO:** Led an agile software team in developing a gamified digital marketplace aimed at facilitating sustainable item exchange within the university community.

- **Macacos Condos:** Developed a multi-tenant SaaS application for administrative management of condominium properties and communication channels.

- **CVCloud:** Created a serverless PDF generation and distribution service leveraging cloud function microservices.
- **Gizmo Notes:** Built a gamified daily habit tracking application focused on personal productivity and goal completion.
